

ARGUMENTATIVE (OPINION) ESSAY

You may be asked to agree or disagree with an opinion on a specific topic. In that case, you need to answer the question by clearly stating your position, and then explaining your reasons, and giving examples and explanations to justify your point of view. When you are writing an opinion essay, you must use an academic tone of language as much as possible.

ESSAY ORGANIZATION

Similar to other essay types, you should follow the basic organization structure.

INTRODUCTION

In the **introduction**, you need to write a clear thesis statement for the reader to understand your main idea. The main idea should include the key points in the prompt.

It is important to paraphrase the prompt so that you do not repeat the question word by word.
